Summary

Computer Science undergraduate at IIIT Guwahati who builds full-stack web applications with React, Node.js, and Firebase, with a strong foundation in Data Structures & Algorithms and a growing interest in AI/ML and scalable systems.

Education

Indian Institute of Information Technology Guwahati **2024 – Present**
Bachelor of Technology in Computer Science – CPI: 8.11 *Guwahati, India*

Rajasthan Board of Secondary Education **2022 – 2024**
Senior Secondary Examination (Class 12) – Percentage: 89.0% *Sikar, Rajasthan, India*
Secondary Examination (Class 10) – Percentage: 90.67% *Nasirda, Rajasthan, India*

Technical Skills

Languages: C, C++, Java, Python, JavaScript
Web Development: React, HTML5, CSS, TailwindCSS, Node.js, Express, MongoDB, Firebase, REST APIs, Socket.io, Framer Motion, MySql
Machine Learning & Data: NumPy, Pandas, Scikit-learn, Data Analysis, Matplotlib
Tools & Platforms: Git, GitHub, VS Code, Figma - **Design 1**, **Design 2**, **Design 3**
Core Concepts: Data Structures & Algorithms, OOPs, Operating Systems, DBMS, Responsive Design, Version Control

Projects

Apni Baat-chit | Real-Time Chat Application
- Built a full-stack MERN chat application with one-on-one messaging, image sharing via Cloudinary, and profile avatars, using Zustand for state management.
- Secured the app with JWT authentication in HTTP-only cookies, bcrypt password hashing, and protected routes on both client and server.
- Implemented real-time messaging and live online/offline presence using **Socket.io**, delivering messages instantly to recipients' sockets after saving to MongoDB, with no polling.
- **Tech Stack:** React, Node.js, Express, MongoDB, Socket.io, Cloudinary, JWT

School Web | School Information & Management Website
- Developed and deployed a full-stack responsive website for my former school, currently used by them with **300+ active students** and supporting parent sign-up and onboarding.
- Designed a clean, mobile-responsive UI presenting academics, facilities, and announcements, and integrated Firebase for authentication and real-time data storage.
- **Tech Stack:** React, Node.js, Firebase, Authentication, Responsive Design, Full-Stack Development

EstateX | RealEstate Management System
- A full-stack real estate platform with role-based dashboards for Admins, Agents, Owners, and Buyers. Build as a Group Project for DBMS course in 2nd year with 3 of my Batchmates.
- Implemented secure **JWT authentication** and REST APIs with Spring Boot, and designed MySQL stored procedures and triggers to manage property transactions, rentals, agent ratings, and buyer status.
- **Tech Stack:** React, Spring Boot, Java, MySQL, JWT, REST APIs, Tailwind CSS, Role-Based Access Control

5-bit XOR Cipher | Symmetric Encryption Tool
- Implemented a lightweight encryption/decryption tool demonstrating core symmetric cryptography and bitwise-operation concepts.
- Applied bitwise XOR logic to efficiently encode and decode messages, reinforcing low-level data security principles.
- **Tech Stack:** C++, STL, Cryptography, Bitwise Operations, Algorithm Design

Portfolio Website | Personal Developer Portfolio
- Built a modern, animated developer portfolio to showcase projects, skills, and technical experience.
- **Tech Stack:** React, Node.js, Framer Motion, SMTP, Responsive Design

Experience

Technical Team Member
Entropy25
- Contributed to the development and design of the official event website, collaborating with a cross-functional team.

Achievements

- Smart India Hackathon (SIH) 2025 – Top-7 nationwide (Team Leader)
- LeetCode – Max Contest Rating: **1799**, Max streak: **190+ days**
- JEE Advanced 2024 – Qualified
- JEE Main – 98.27 Percentile
